

Parents of High School Athletes: How to Eliminate of the High Cost of College

By Jon Fugler, CEO
Recruit-Me Athletic Scholarship

If you suffer from financial pressure ... if you have little or no money saved for your son or daughter's education ... if you wonder how you're going to pay for your kid's college ... then this message is just for you. Here's why...

Your kid's athletic talent can be their ticket to college. I'll show you how to make that happen.

And you need to realize, there is a cost to *not* dealing with this...

If You Ignore Your College Money Crisis, It Just Gets Worse

Forbes reports that the average cost of attending a four-year public college is over \$28,000 per year. You don't even want to know what the cost is for a private education. (Over \$59,000 per year). And the cost is rising by 4.5%-6.5% every year.

What most families do when facing financial pressure to pay for college is borrow beyond their means ... or try to get obscure scholarships that are highly competitive or really small ... or look for some magic bullet that will solve their problem. But for most

families, none of that works.

- College loans often strap a family for a decade or more
- Trying to get those obscure scholarships can be a full-time job and it just isn't fruitful for most families
- Parents get discouraged and their kids have to settle for a lesser school, way below their level

And what happens if you just do nothing? If you just keep doing what you've been doing? You'll have little or no money to send your athletically talented, academically smart kid to college. That's a tragedy. Plus, you'll watch other less-talented student-athletes get into the school of their choice on scholarship, and you'll wonder how they did it.

How I Can Solve Your College Financial Problem

I've got an answer that works. Here's the story:

Confusion. Financial fear. Lack of direction.

My wife and I felt those things when our twin sons were in high school. You might have those feelings right now.

I was sitting in the bleachers one night with about 200 other parents and athletes. We listened as an expert woke us up to the world of athletic scholarships.

Our twin boys were high school juniors, excelling in baseball. I knew we couldn't afford college for both at once. Our daughter was already in college. We needed scholarships. I was all ears.

That was the start of it all. Over the next few months, my wife and I took control and figured out the scholarship mystery. We worked at it and got help from more experts.

Then it happened.

A little over a year later, our sons achieved their dreams: A fully paid education at the school of their choice playing the sport they loved.

Since then, for over a decade, I've shared with other families the same step-by-step process my wife and I used with our boys. And family after family has achieved their athletic scholarship dream, too. I call this system **Recruit-Me**.

It Has Worked for These People, And It Will Work for You

Here's what our step-by-step process did for our family: It totally eliminated college costs for our twin sons and took huge financial pressure off of my wife and me. If it weren't for the steps we took, we'd still be underwater financially.

And it's not just us. Here's what it's done for others:

"I strongly feel your program helped my son receive a full scholarship to college. The way you structured the information made it a lot easier for us to "screen" potential schools down to the ones that best matched the school's needs to my son's needs." Joe C., California

“I have loved the whole program because it gave me an opportunity to maintain a level of control over my son’s future. This program is great and I would like to encourage more parents to become more involved in allowing their child to realize his/her dream.” Robert, Alabama

“In my daughter’s case, Recruit-Me helped her to successfully showcase her athletic skills that resulted in her now competing at an elite New England college. In her words, ‘I am living my dream.’ Thank you for the help and on-going support.” David, Utah
